Matthew K. Wilson
Superintendent

Dear Parents and/or Guardians:

As you may have heard, there have been reports of people throughout the country, and within New Jersey, contracting the respiratory virus, (EV-D68). Please know that there are no reported student cases of this virus at Oradell Public School.

To that end, we did want to provide you with helpful information about the signs and symptoms of this virus so you are best informed about safeguarding your children, and we can maintain a healthy environment for all of our students.

We would first recommend that you visit the two links below for information about the virus and how it can best be treated:

<http://www.cdc.gov/non-polio-enterovirus/about/EV-D68.html>

http://www.nj.gov/health/cd/documents/faq/ev_faq.pdf

We would also ask that you please monitor your children for signs of the illness and do not send them to school if they exhibit symptoms. Should they exhibit symptoms, we would ask for your cooperation in contacting our Health Office if you believe your child might have the EV-D68 virus.

Please also be advised that the Oradell Public School District continues to stress with students the importance of proper hygiene, and we have specific cleaning measures and daily routines in place to ensure the health and well-being of our students.

Please feel free to reach out to the administrative team or our school nurses with any questions you may have.

Sincerely,

Matthew K. Wilson

Matthew K. Wilson
Superintendent
