

Would you like to learn more about the importance of science in your child's future?

**Do you want to encourage scientific investigation with your child at home?
Are you ready to have fun with science?**

Then come and join us for

Family Science

at

ORADELL PUBLIC SCHOOL

**Classes for Parents
& Their children in Grade 4**

WHAT IS FAMILY SCIENCE?

Family Science is an after school program that fosters curiosity about science and encourages parents, teachers, and children to explore science together.

Family Science activities are open-ended and extends the OPS science curriculum by including math-based physical science, chemistry, and biology. Children learn that the essence of science is curiosity, inventiveness, critical thinking and persistence.

Family Science develops children's problem solving skills and helps build a conceptual understanding of science with hands-on materials. Inexpensive materials of all kinds (beans, blocks, bottle caps, water, toothpicks, coins, etc.) are used to help children figure out ways to solve problems. Simple materials are used so that the extension of these activities are easy to do at home!

PLEASE NOTE: Children may not come alone, nor may parents attend without their children!! Other children in the family may attend if they are CURRENTLY attending Oradell Public School.

REGISTRATION:

Please email your reply to Mrs. Killeen
killeen@oradellschool.org

Include your child's name, your child's teacher's name and your preference for either session 1 or session 2. If your family is available for either session please indicate that too!

**Enrollment is limited
and final selection will be made by lottery.**

Your e-mail must be received no later than:

MONDAY, SEPTEMBER 22, 2014.

**Join us for a session of FAMILY SCIENCE
once a week for 5 weeks in
Multi-Purpose Room C**
