

# **Oradell Public School District**

## **Schaefer “Explorations” Summer Program**

**June 25, 2018 – July 20, 2018**

*Explorations* will be conducted weekdays, Monday through Friday, beginning Monday, June 25, and ending Friday, July 20. *Explorations* will be closed on July 4th. The attached schedule was devised so that children and parents may select as many as six courses from a variety of offerings. Session A will run from June 25 - July 6; Session B will run from July 9 - July 20. The tuition per course is \$80 during Sessions A and B. Basic Skills classes are at a charge of \$120 for all four weeks. Pottery – Hand Building With Clay is \$160 for all four weeks.

**Please complete the attached registration form for the appropriate session(s) and return it with a check reflecting full payment made payable to the Oradell Board of Education. The deadline for registration will be May 21, 2018 for both sessions. (All participants who register by the deadline will receive a commemorative t-shirt.) Please note: an additional \$25 nonrefundable late registration fee per family will be charged for applications postmarked after May 21. No refunds will be given past June 1, 2018, and refunds requested prior to June 1 will result in a \$25 processing fee.**

**Make all course selections based on your child’s present grade level.** Class size will be limited and courses will be filled on a first come, first served basis. We reserve the right to cancel any course based on insufficient registration. Therefore, it is important that you list a second or third choice if you have one, otherwise your check will be returned to you. Instructors listed for some courses may be changed without notice.

**Should you have any questions, contact Ms. Maklin, Assistant Director at 201-261-1180, ext. 5059. Please leave a message. Your call will be returned as soon as possible.**

## COURSE DESCRIPTIONS

### KinderCamp

Ready? Set? Go! This voluntary program will introduce incoming kindergartners to the idea of making choices within a structured environment. Each week the KinderCamp teachers have planned new and exciting themes, packed with learning and lots of hands-on fun! Children will work in learning centers, play games, create artwork, sing songs, as well as participate in a special activity each day. In short, this will be a great introduction to kindergarten. **Please provide a healthy snack and drink daily. Please wear sneakers every day. Sessions will be held each day from 8:30-11:25. The cost for this course is \$400. Registration forms have been mailed. Additional forms can be found online under KinderCamp registration form.**

### Basic Skills Reading & Basic Skills Math

Students who need a brush up in the areas of reading and/or math, this course may be for you. Current grade skills will be reinforced through several different types of activities. Classified students and/or students who are currently receiving basic skills instruction may find this course very helpful in keeping skills fresh and in preparing for the next school year. Students will be separated into appropriate grade level groups. These basic skills courses are being offered for a four-week course beginning on June 25 and running through July 20 at a flat cost of \$120.

### ABCs of Books and Puzzles

Reading is fundamental! Puzzles are challenging! Summer reading together is always fun and doing puzzles is a challenge that will be fun. This year at OPS our students were thrilled to meet Jerry Pallotta the ABC book author. To continue with that thrill, we will be reading ABC books and doing puzzles about airplanes, bugs, cars, dinosaurs, and other interesting things. When a child works with puzzles the right and left brain are both engaged, which is when our brains are most active. Puzzles help with cognitive skills, fine motor development, hand-eye coordination, social skills, and problem solving. These two combined activities will enrich your child's world and summer.

## Miss Pallotta's Summer Safari

Hello, junior explorers! Come on a safari with me. Would you like to take a peek inside the lives of dozens of majestic animals? For our summer course we will submerge ourselves into the wonderful world of the animal kingdom. Each day we will focus on a different species to get to know. Lions, tigers, and bears, oh my! Within our tour of the animal world, we will complete journal entries, sing songs, make arts and crafts, do exercises, read books, and watch videos to help us become experts on these animals. We have dozens of animals to learn about such as: giraffes, cheetahs, elephants, gorillas, meerkats, and so many more. By the end of the session, each explorer will have a completed animal book comprised of their own personal illustrations and creative writing demonstrating their knowledge of each of our furry friends. Let's put on our binoculars and buckle up, it's going to be a bumpy ride!

## Move to the Beat

Come join us as we rattle, shake, and most importantly move to the beat! In this class we will be dancing to the beat, using parachutes, beanbags, rhythm sticks, and more! Music incorporated with movement is an essential part of development in children. Music engages the brain while stimulating neural pathways associated with higher forms of intelligence such as abstract thinking, empathy, and math. Music's melodic and rhythmic patterns also provide exercise for the brain and aid in the development of memory. Moving to the beat is a great way to both have fun and enjoy learning!

## Music and Movement

This is a fun, creative, and exciting program. It utilizes and teaches techniques created to channel children's natural enthusiasm for music and play. These skills help develop self-esteem, gross motor skills, and so much more. We will play various instruments, sing, dance, play games, and have lots of fun!

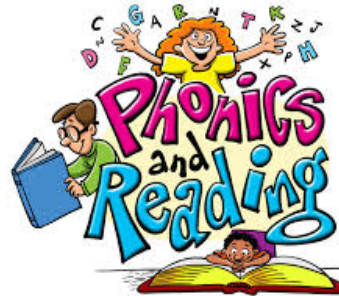

**Instructor:** Mrs. Haberman      **Grades K-2**      **2 weeks**  
**Session A:** June 25-July 6      **9:30**  
**Session B:** July 9-July 20      **8:30**

## Phonics Fun!

Do you like letters and words? Then join us this summer as we play letter and sound games and read related stories that rhyme, repeat text patterns, and have silly endings and characters. Our letter games provide practice with vowels and beginning/ending consonants that will strengthen your letter and sound knowledge. Join us for fun with phonics!

**Session B:** July 9-July 20      **8:30**

## Poetry in Motion

Roses are red,  
Violets are blue,  
Let's get together,  
To write a poem or two!

In this playful poetry program, children will learn to look at the world through a poet's eyes, play with words, craft ordinary lines into poetic verse, and create their own anthology of poems... complete with illustrations! Family and friends will be invited to join us on the last day for an enlightening Poetry Café.

**Instructor:** Mrs. Kaminski      **Grades K-4**      **2 weeks**  
**Session B:** July 9-July 20      **10:30**

## Pottery - Hand Building With Clay

For the first six days of class you will create a pot using one of the three hand-building techniques – slab, pinch, and coil methods. On free Fridays you will be given a pound of clay to explore and create anything you would like. We will be using white firing clay, and all pottery will be glazed.

(DUE TO THE NATURE OF THE MATERIALS AND TIME, CLASS SIZE IS LIMITED.)

## Steamagination - K'NEX Building Bridges

With this fun inquiry-based approach to learning, students will build 13 fully functioning replicas of real life bridges, investigate, and then evaluate scientific principles in action. These models help educate builders about bridge infrastructure by demonstrating key bridge types such as: truss, arch, anti-lever, and suspension. This class will stimulate kids' brains as they create and then test their creations using scientific principles. Put kids on the path toward a fundamental understanding of S.T.E.M. subjects.

**Instructor:** Ms. Pizza                      **Grades 2-4**                      **2 weeks**  
**Session A:**    **June 25-July 6**                      **8:30**  
**Session B:**    **July 9-July 20**                      **8:30**

## Steamagination - K'NEX Amusement Park Fun

Through interactive hands-on learning, students will be introduced to scientific concepts as they build simple machines using wheels and axles, simple planes, levers, and pulleys. With this fun inquiry-based approach, students can build, investigate, and evaluate scientific principles in action. Let your kids' imaginations soar as they create their own inventions. Through fun activities this class will stimulate and foster creativity and learning as well as promote social skills with teamwork and collaboration. Students will create fully functioning ferris wheels, roller coasters, swing rides, and more.

**Instructor:** Ms. Pizza                      **Grades 2-4**                      **2 weeks**

## ¡Viaje a España! (A Trip to Spain)

¡Ven conmigo, niños (come with me)! This summer you will be whisked off to explore the beautiful country of Spain. During your trip, you will have the chance to visit some amazing cities like Barcelona, Madrid, Bilbao, Pamplona, and Segovia! We will learn about traditions, cultures, food, and important places. We will also be celebrating Los Encierros (The Running of the Bulls) as they happen in real life this summer! You will get the chance to learn Spanish, too. The best part of the summer will be our fiestas (parties) where we will celebrate different traditions and holidays all while cooking the delicious food Spain has to offer. Are you excited to try churros y chocolate? How about Patatas Bravas or Tortilla Espanolas? Would you like to visit Spain? Then join me this summer as we travel to España! (Note: We will be visiting Spain from our classroom in Oradell, NJ, but you will FEEL like you are actually in Spain.)

**THIS CLASS IS NOT APPROPRIATE FOR CHILDREN WITH FOOD ALLERGIES.**
