FAMILY MATH GOALS

To build confidence and competence in mathematics by:

- Providing hands-on experience in a fun, supportive environment**
- Creating positive attitudes towards mathematics**
- Building problem-solving strategies that reduce frustration and increase the willingness to accept new challenges**

To create partnerships between home and school by:

- Reinforcing the school curriculum as well as state and national standards**
- Making time for families to learn and work together**
- Increasing positive dialogue between teachers, parents and students**

To motivate students to continue studying mathematics by:

- Building awareness of the need for mathematics in life and work**
- Introducing families to career options and role models**
- Encouraging mathematical literacy for all students**
