

Oradell Public School District

Our children, our hope, our future

March 14, 2020

Dear OPS Community,

First of all, thank you for your continued support as we transition to remote learning. We know that Monday morning will have challenges as students connect via devices from OPS and interact with the K-2 website (which is on the front page of the OPS website) or with their Google Classroom. We currently have three different types of devices used at OPS. If your child is in third grade, they took home a PC laptop. If they are in 4th grade, they took home a Mac laptop, and 5th and 6th graders took home Chromebooks. If you have a technology issue, please first check the front page of the OPS website (under the photo). There will be a link for troubleshooting technology tips. As problems arise, we will add documents there to assist you. If you still have an issue then (with technology access on an OPS device not with Google Classroom or a learning activity -- those issues should be directed to your child's teacher), please email techneeds@oradellschool.org. It is important that you share what grade level your child is in so we know what device they are using.

The first issue you may have is connecting to your home Wi-Fi. Directions for each device are attached. The next few days will have obstacles to overcome, but if we remember that we have one goal – to keep our children safe, happy and learning – we will work through whatever we need to. As always, we move forward together.

Sincerely,

Megan N. Bozios
