JOIN THE 2020-21 RIVER DELL BLACKHAWKS

REGISTRATION IS OPEN NOW!

Please go to <https://www.riverdellblackhawks.com> to register. Registration will close at MIDNIGHT on JUNE 1st. You will need to submit a birth certificate and head shot photograph of your player to complete registration.

For **EXISTING** Blackhawks players:

Please confirm your interest in playing soccer with the Blackhawks for the 2020-2021 seasons by completing registration.

For potential **NEW** players:

We ask that you assess the following criteria to assure that club soccer is right for your family and child:

- There are 2 seasons (10 games in the Fall and 10 games in Spring)
- 2 practices per week in the Fall and 1 per week in the Spring all run by a paid trainer
- The games are against other competitive club teams
- Commitment to attend practices and games is paramount to the success of the teams and your player
- Many teams also do offseason programs
- This is a competitive program and players' time on field will vary based on skill levels and team flighting
- Please review Codes of Conduct for players and parents (available at www.riverdellblackhawks.com and required in the registration link)

Team Formation:

Once we receive all registrants, teams will be formed based on coach/trainer ratings of existing players combined with any new players interested. Teams are determined by birth year. Since new players will not be evaluated via a try-out this year, please share any prior playing experience so we can assess proper placement. While we always strive to find a roster spot for every interested player, the Blackhawks reserve the right to wait list players. In the absence of try-outs, any such decision will be based on registration numbers, roster size constraints imposed by the NCSA, and the coach and trainer evaluations. If a team exceeds its maximum number of players and there are not enough players to field a second team, new players will be the first to be wait-listed.

COST:

**\$665.00 for
Fall/Spring
Season** (no fees will

be collected until confirmation that NCSA is conducting a fall season).
