

Policy

PHYSICAL EDUCATION AND HEALTH

The Oradell Board of Education directs that the district's curricular and extracurricular programs of physical education and activities comply with the district's affirmative action resolution and equity plan for school and classroom practices as stipulated in policies 2224, 5145.4, 6121 and 6145 in this manual. The board shall ensure that the comprehensive health and physical education curriculum addresses all elements required by the **New Jersey Student Learning Standards**.

In general, physical education classes shall not be divided on the basis of sex. The quality and quantity of teachers, equipment and facilities shall be equivalent among the schools and comparable from level to level, taking into account the needs of the students.

The board will consider on a case-by-case basis requests from students or their parents/guardians in the case of minors for permission to satisfy the physical education requirement through an alternative program of athletics or physical education activities that meets the requirements of law and is consistent with the district's physical education program goals and instructional objectives.

The district physical education programs and instructional activities shall be equitable. All physical education programs shall be co-educational unless otherwise indicated by law.

Suicide Prevention

Students shall receive instruction in suicide prevention as part of the district health and physical education curriculum, which is consistent with the New Jersey Student Learning Standards for Comprehensive Health and Physical Education.

Adopted: December 9, 2009
Revised: September 12, 2013, May 10, 2016
